## History of Excellence

We take pride in the products we sell. Founded in 1946, and now one of the world's largest wholesale suppliers of playground equipment, Jensen Swing Products has earned a reputation for innovation and excellence. Our products are engineered for safety and built to last.

## Safety for Children

To protect very young or disabled children from possible accidents, we offer special options such as safety chains and short link chains. Both bucket seats and flat seats are available with steel inserts to thwart vandalism. All products have been thoroughly field tested to ensure their safety and durability.

## Equipment Built to Last

Our products are custom made for us. We select only the finest materials and finishes. Equipment exposed to harsh weather is galvanized by electroplating to resist rust. Fittings that move against or within each other are designed for easy maintenance or are self-lubricating. You can depend on Jensen Swing Products for years of enjoyment.
